Principal's Message

It is often stated that life is a book with every major event being a chapter. You now hold in your hand the chronicle of the chapter entitled "**Life at LaZerte.**" As you revisit this chapter in the years to follow you will find yourself drawn back into the feeling of being a Voyageur. After all, M.E. LaZerte is about more than the walls, doors and whiteboards. It is about the energy of Taste of LaZerte, the sharing of our passions through clubs and teams, the imagination and expressions of the drama productions, musical and artistic creations, the Grad Fashion show, the Student Union Activities, Skills Canada Competition, Pep Rallies....

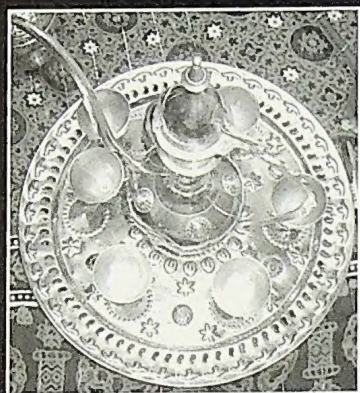

Your Yearbook for 2003-2004 will be a life long record of your special time at M.E. LaZerte. As you thumb through each section let the smiles remind you of those you loved and admired, let the actions captured leave your heart racing once more, let the faces of those who taught you inspire a memory and possibly a future direction. Most importantly, with every turn of the page, allow yourself to experience all of the emotions you have had over the last year. This beautiful portfolio of the year will continue to amuse, amaze, and stir you - Life at LaZerte is never dull. Embrace this keepsake of your life as a Voyageur with fondness and joy.

Celebration of a Legend

It is very rare that a school chooses to re-name one of its parts after someone, but it happened this year when the South Gym was re-named the **Thom Elniski Gymnasium**.

Why? Well, Mr. Elniski spent his entire teaching career (30 years) at M.E. LaZerte and contributed an incredible amount to this school and this community. He defines what it means to be a **VOYAGEUR!** On April 24, a celebration was organized by Mr. Jereniuk and Mr. Fleetwood, 350 people (alumni, staff, students, and community representatives) attended and over \$8000 dollars were raised for cancer research, and to help with Mr. Elniski's stem cell transplant. April 24 was also declared to be **Thom Elniski Day** by Mayor Bill Smith. Mr. Elniski has been missed as he has struggled with his fight against cancer, and we look forward to the time when he once again comes to the gym, his gym, on a regular basis.

On page 131 you can read Matt Kallio's dedication of the gym and on these pages the yearbook presents a series of pictures that are representative of Mr. Elniski's life and career at LaZerte.

ROAD TRIP

test of endurance... the jasper challenge

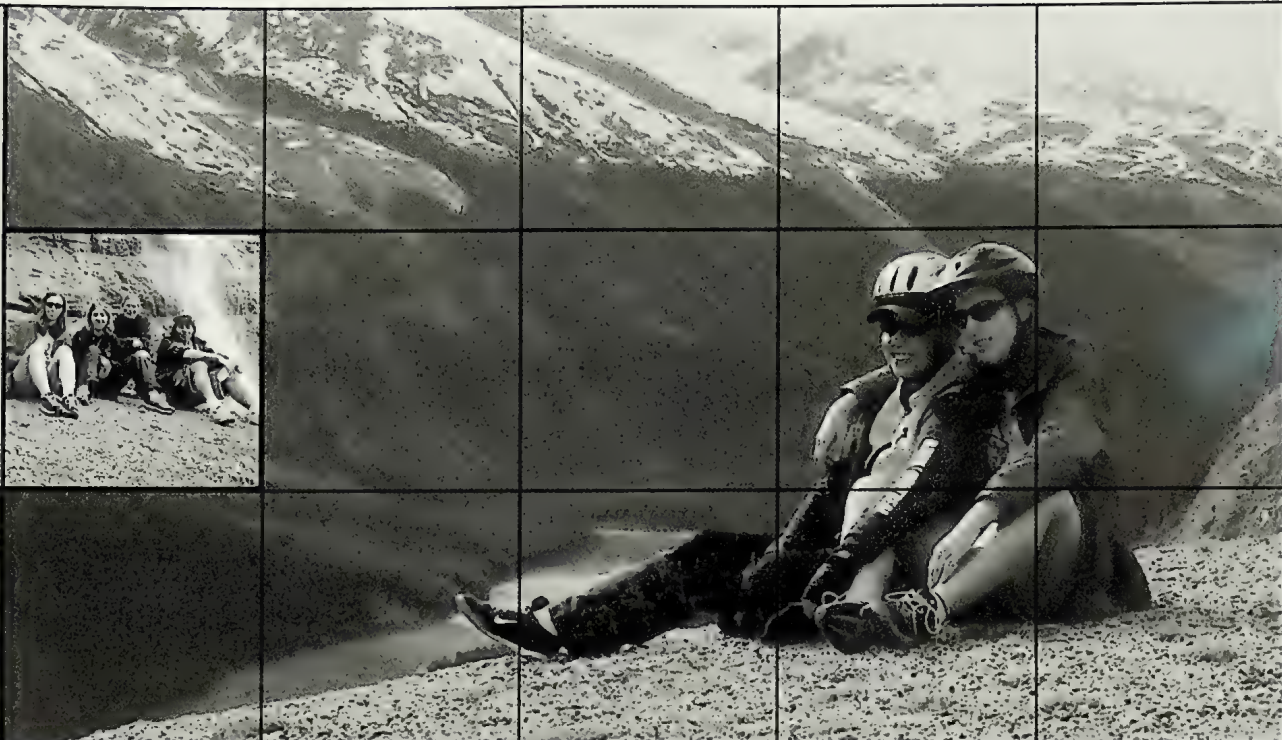

From May 20 to 22, the school's Physical Education 30 Co-Ed class ventured into the mountains of Jasper, Alberta. Starting their biking trip at Clien River (near Nordegg) and going to Jasper, they endured inclement weather and the tough, yet beautiful terrain. They checked out places such as Athabasca Falls and the Weeping Wall. Approximately 200 km later, the brave Voyageurs completed their journey. These individuals exhibited toughness and endurance in completing the challenging trip.

The Curious Savage

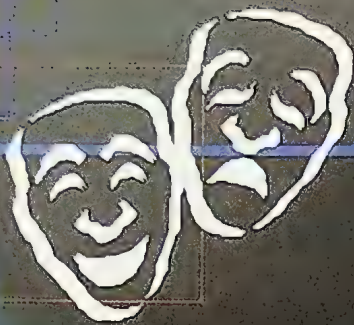

The comedic play, "The Curious Savage" written by John Patrick, was M.E. LaZerte's drama club production this year. Set back in 1950's Boston, Massachusetts, a dysfunctional family commits their step mother (Mrs. Ethel Savage) into the Cloustiers, a mental institute, solely out of greed. With the help of her new found social misfit friends, Mrs. Savage eventually wins her freedom and her three greedy children are exposed for what they really are — savages.

Major Scenes

Did You Know?

The entire set including backdrops and stage design were created by our very own Voyageur drama and art students.

MUSIC

The Music department of M.E. LaZerte is composed of many disciplines, including choral, instrumental and guitar. Alongside the inspirational Mr. Wedman students have the opportunity to explore their musical talents and express themselves through various opportunities to perform over the course of the year.

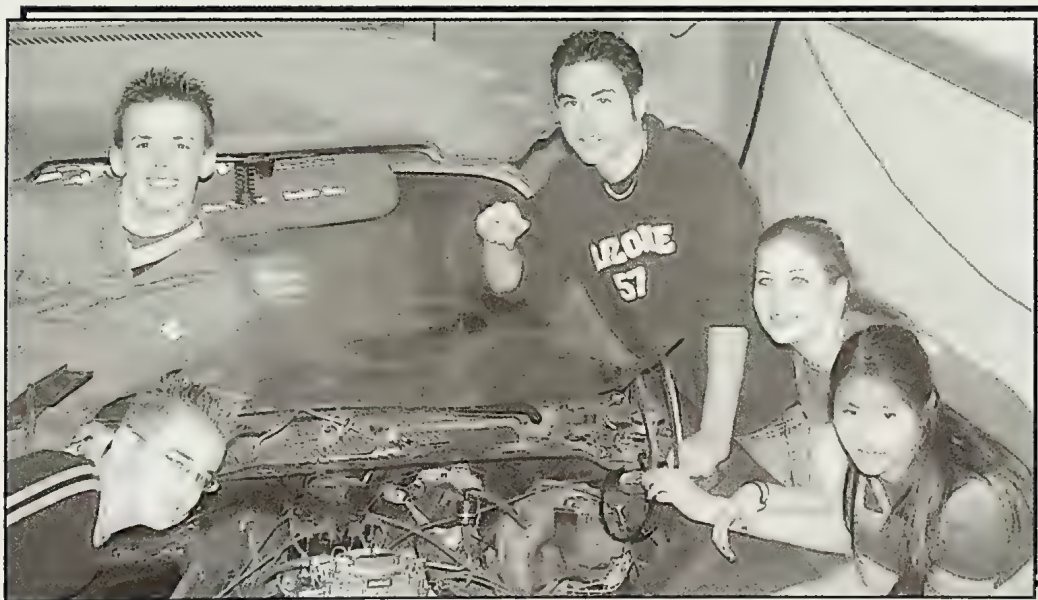

*Filling the halls and our hearts
with the sound of music...*

AUTOMECHANICS

Rolling up their sleeves to gain experiences of a lifetime...

Another thing which sets M.E. LaZerte apart is the fact that we are one of the few schools in the province with an extensive automotives program. With the guidance of the knowledgable Mr. McAdie, Mr. Arthurs, Mr. Green and Mr. Pacholik, students learn maintenance, servicing and experience the real-life procedures of a typical automotive shop.

CONSTRUCTION

Creativity? yes.. hard work? absolutely skill? most definitely! Construction students get hands on experience with design and building. Along with the expert instruction of Mr. Gifford and Mr. Knipe, the constructions classes this year have never ceased to astound us with their never ending innovative creations.

*Practical Knowledge...
hands on fun!*

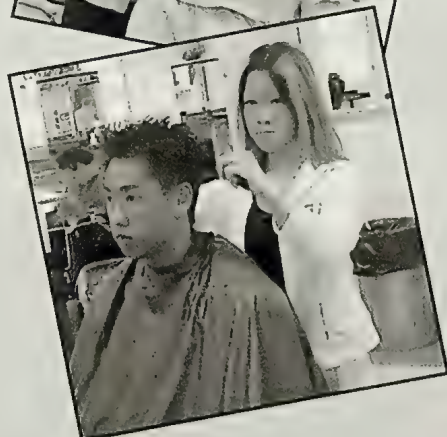

COSMETOLOGY

*Beauty... truly more
than just skin deep...*

MEL is one of the few High schools in Edmonton that is blessed with such an extensive Cosmetology department. Cosmetology students reflect their personal styles relating to hair, nail and skin care applications. As demonstrated by their achievements in competitions such as Skills Canada, M.E. LaZerte's cosmo students have truly given beauty a whole new definition.

FOODS

M.E.LaZerte's fun and unique Foods Department never fails to intoxicate our senses and tingle our tastebuds, those who have walked by the foods labs and have experienced the incredible aromas are especially familiar with this. M.E. LaZerte's food students

*Driven by the taste of success...
Imprisoned by a passion.*

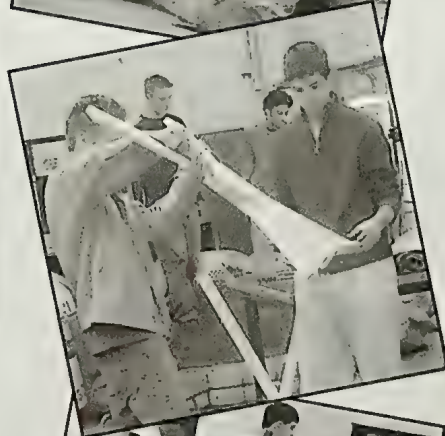

LANDSCAPING

*Discovering innovation and design
through practical experience.*

If you've never heard of M.E. LaZerte's landscaping course you have been living under a rock! Actually, this is a very unique course offered to Voyageurs which allows them to explore various landscaping practices and techniques. This year, our students went from computer design to landscape design applications. The outcome of their hard work produced absolutely beautiful and innovative results.

COMM-TECH

LIGHTS! CAMERA! ACTION! Communication and design is definitely one of the most exciting and technologically stimulating courses offered at LaZerte. With the inspirational and dynamic Mrs. Airth, Comm tech students never fail to dazzle us with their new and fun ways of working with both traditional and digital communication.

*Technology & Students...
the wave of the future!*

FASHION STUDIES

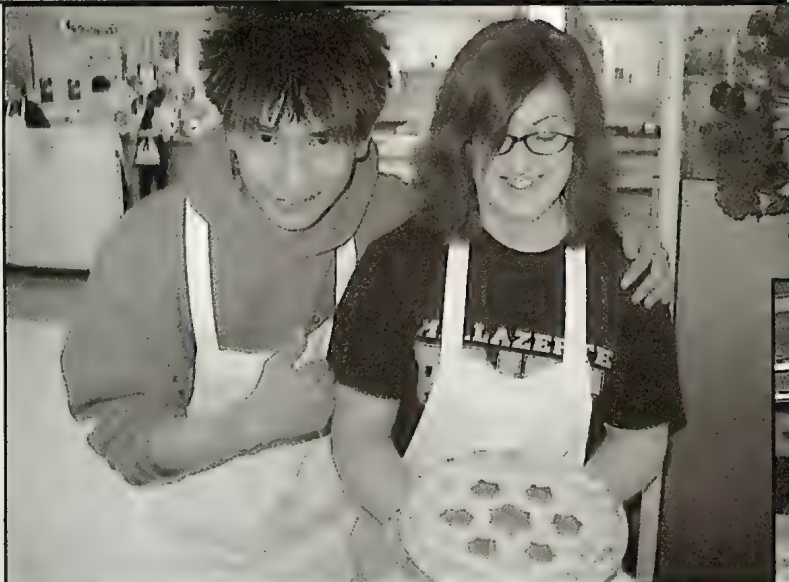

Piecing together LaZerte's Odds and Ends..

Fashion studies at M.E. LaZerte allows students to discover complex fashion and design techniques. Over the course of the year, our fashion students continually dazzle us with their innovative new approaches to expressing themselves in a way which not only shows creativity, but also reflects their individuality. With the expert instruction of Mrs. Harrison, MEL fashion students have given fashion a whole new meaning.

STORIES OF LAZERTE

Think M.E. LaZerte is as usual as other schools? Think again, here are some stories for you to share with your friends!

Student Union Volunteers at the Alex Dacoteau Run in May 2004.

CEMENT WALL

Ever walk around the school and get a chill running down your spine? Ever wonder what may be the cause of it? You may be experiencing a sixth sense of ghostly wanderers around M.E. LaZerte. One late night at school a few students from the yearbook committee decided to go get something to drink from the vending machine. As they were walking down the hallway they saw a black figure running and as the curious bunch they are, they decided to follow it. They ran two times around the outside hallways of the school only to find themselves back inside the yearbook room. There the figure stood and motioned to them to follow. The staff of the yearbook committee started to follow it, however, the figure went through a part in the west wall and the staff could not follow it. This story has been passed down yearly to the new editors of yearbook. If you are to knock a certain part of the west wall (made of concrete) it is hollow. To this day, no one really knows what happened to that ghost or what its intentions were, but if you think you are alone in a hallway, think again, the figure might just be there by your side.

ROOM #252

When you register you get a sheet of paper telling you what classes you have, what teachers are teaching you, and most importantly what room you are in. Room 252, you probably think what is so important about it? Well you are about to find out. You step into this class thinking, it's just a normal class, nothing special about it, however if the room is completely cleared out and you step on every tile in the room you'll find one tile that doesn't sound like the others. Why? we don't exactly know, maybe there is buried treasure underneath this tile or maybe there's a secret chamber that leads somewhere, whatever it is we'll let the students and teachers of room 252 unravel the mystery.

DOTS IN THE HALLWAY

You are walking around the school with some friends, hanging out. Then you casually look upwards towards the ceiling and you see a coloured dot. Nothing special, nothing big right? Wrong! M.E. LaZerte is full of these dots and they aren't put up by just anyone, they're to mark secret tunnel ways of the school. You see, these dots are put up to signal, to those who know of this secret, where the entrances and exits are of these secret tunnels. Where these secret tunnels lead is up to you to find out, for even the known are mystified.

SECRET ROOMS

Do you ever notice doors that are in awkward places? Say on either side of the computer lab? They're not labelled and you would think that they lead into the computer lab, however if you're standing in the computer lab and you look around, there is nothing but white walls. So where do those doors really lead? Well if the doors are open there are cement tunnels. If you follow these tunnels you will be led to the other rooms that are never opened. Here, knowing staff and students can hang out. Room 236 mechanical, room 235, and room 202 no one knows what's really in there however if you can get one room open you can get to the other ones. The real secret is how to get those doors open, so if you are ever bored and are walking around, check out these rooms for an adventure.

What's one of your embarrassing moments...?

E

ZOZAN AHMAD

"One time, I was walking in the hallway thinking I was all hot and then I fell flat on my face."

MANAL KADRI

"This year, it's got to be when I tripped down a flight of stairs."

NATURE SALIB

"I got caught in the washroom with a girl..."

ROJAN HUSSEIN

"During winter, I slipped on the icy sidewalks in front of the school in front of everybody!"

History of LaZerte

Every teacher that learned the ropes of their profession in the University of Alberta's Faculty of Education owes a debt of thanks to Milton Ezra LaZerte. The man who spurred on the creation of the undergraduate program that led to the University's first-ever Bachelor of Education degree made an indelible mark on the city's scholastic landscape for almost 60 years.

LaZerte was born in tiny Dixon's Corners, Ontario on June 13, 1885. After earning B.A. degree in Honors Mathematics and Physics in 1909 at the University of Ontario, he headed west to attend Calgary Normal School, a teachers' academy.

Alberta needed motivated people to help set its course in not just education, but all areas. LaZerte wasted little time moving up the ladder. After serving as the province's rural schools inspector from 1913-1920 (with a three year interruption for military service) and the city's school inspector for three years, he joined the University of Alberta staff in 1924. Well there, he was granted his Masters in Education degree. Later he earned his doctorate in Chicago.

LaZerte also became President of both the Alberta Teachers' Association and the Canadian Teachers' Foundation. He eventually became principal of the school's College of Education in 1940. That department became the Faculty of Education two years later, and LaZerte, as a faculty's first dean, paved the way for the undergraduate degree program.

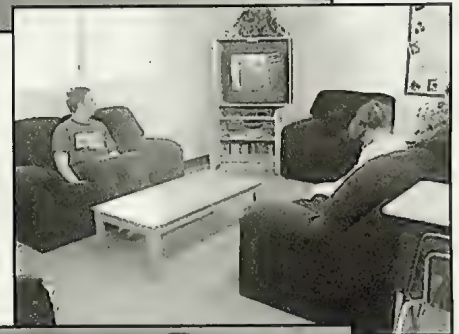

To this day, the University presents M.E LaZerte award to the top graduating student in the Faculty of Education.

Another history making move occurred in 1944, when all Normal Schools in the province closed, leaving the University responsible for training elementary school teachers. LaZerte took command in organizing and directing the first programs for total teaching at the university, before retiring as dean in 1950.

But, LaZerte's constant need to stay active made his golden years far from uneventful. From dean of the Faculty of Education for the University of Manitoba to a three year stint as an Edmonton alderman later chairman of the public school board. LaZerte maintained his influence. At age 85, LaZerte attended the official opening of the school named after him on November 27, 1970, before retiring the following year.

Diplomas

Alberta Learning decided to implement its new *split-diploma* examinations. This new idea divided the written and machine scored portions into two separate examination dates. The change caused a lot of tension in many high schools including our very own. Here are some comments regarding this controversial issue...

NOLAN RUDIAK

"I think the change was a good idea since it gives people more time to prepare for their diplomas."
(Grade 12)

KIM LINDROTH

"I like the idea, but the week difference between the exams is annoying. It should be back to back."
(Grade 11)

ANDREW WONG

"The split-up is a waste of time to study twice for the same thing. Plus, writing two diplomas on the same day sucks."

PINKY AULAKH

This room is most noted as a staff lunch room which is connected to the library behind the librarian's main desk. Inside, you can find a comfy seating arrangement and work space.

TOOL SHOP

Located in the middle of automechanics shop is the parts and tool storage area. A staircase planted in the middle of the room leads the mechanics to many shelves of gadgets and gizmos.

FORGOTTEN THEATRE

This room feels abandoned with its lonely chair and burnt out lights. This room is situated right inside of the drama room is commonly known as the change room. M.E. LaZerte High School.

Toasting a Legacy

Three years ago, I came to M.E. LaZerte as a young boy. I chose this school primarily based on one decision; stories I heard of a basketball coach that had a passion for the game greater than I. But when I got here, I couldn't find this man. There was a coach; but he was a man who promised me nothing. He never told me I was better than anyone else. He didn't light a fire under my butt to get me to work harder. He never made false promises to me of a great future in the sport of basketball. He never took me under his wing to try to mold me into his own image.

What this man did do, was recognized me for whom I was. He demonstrated to me that in order to succeed in life; I should just step forward. He illustrated passion comes from within. He taught me to never regret my decisions, but to learn from the poor ones. He taught me that before I could move forward, I should know where I've been. He taught me it was all right to feel frustrated, it was acceptable to be scared; and that all of those confused feelings I had, were just a part of growing up. This man taught me so much in such a little amount of time. The amazing part about all of this was he didn't do this just for me. He did this for everyone who was fortunate and privileged enough to be touched by his wisdom.

There was once a quote in the Edmonton Journal about this man; a coach "who turned boys into men." This quote as I look back on it, did not, and could not fully describe the influence that he had on people's lives. You truly had to know him to fully appreciate everything that he did. This man, our coach, our dear friend is Mr. Thom Elniski.

It was hard for this year's team to accept that Mr. Elniski would not be with us on the bench. It was difficult to accept our coach and our mentor would not be there at the practices, the team meetings, or just to talk to us in the halls or gymnasium. So, it only seemed right that our team would dedicate this year to Mr. Elniski. We all inscribed on our shoes FLME - "Fight like Mr. Elniski." This also became our team motto for the season. Besides the passion and desire taught for the game of basketball by Mr. Elniski, this phrase had a deeper meaning for those of us whom were privilege of having him as our friend over the years.

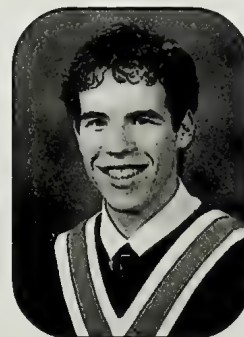

Before every game this season, the team would huddle under the basket and dedicate that game to Mr. Elniski. During playoffs, both players and fans would wear t-shirts inscribed with the logo FLME. Soon our great fan base learned the meaning of F.L.M.E. and they would chant those letters to inspire us to take our game to a higher level. Taking nothing away from Coach Dunkley, Mr. Elniski was such a deep reason for our success this year. Just the thought of Mr. Elniski would inspire us to run a little harder and dig a little deeper.

Looking back over the years, with the fantastic students and athletes that have come out of the doors of this great institution, it is hard to imagine how many lives Mr. Elniski had a part in molding and building. He always has a smile on his face with a little word of encouragement or inspiration. Mr. Elniski taught so many people, so much. He always knew how to bring out the passion from within a person and how to get that person to do their best. Failure was never an option.

Today we have something very special to celebrate. Mr. Elniski has been a shining example of M.E. LaZerte's success for the past 30 years through both athletically and scholastically. Mr. Elniski has been such a great inspiration to untold numbers of students, athletes and his fellow faculty members.

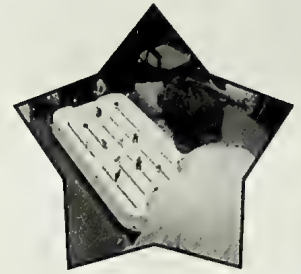

It is my great privilege on behalf of the people you have inspired, taught, and became life long friends with; to dedicate this gym to you, our coach Mr. Elniski. As of this day, April 8th, in the year 2004 this gymnasium shall be named and forever known as the "Thom Elniski Gymnasium."

FASHION SHOW

On the late-winter's evening of **March 4, 2004**, M.E. LaZerte held it's annual Grad Fashion Show fundraising event. Teacher advisor **Ms. Houston** together with super-organizers and grads **Aaron Lee** and **Martine Manning** did an excellent job piecing together the show, and making sure everything was perfect. They inspired the forty graduating models to have fun and show another side of themselves in some stunning outfits, and cool clothes. Together with the models, organizers, volunteers, clothing sponsors, and the entire Fashion Show crew, the committee managed to raise over **\$10000**! It was an amazing show presented to a packed theatre

GRAD Commencement

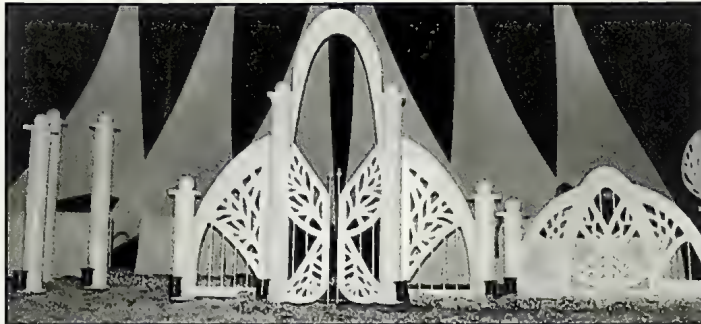

One night, 500 graduates, one walk across the stage. The parents, staff, family members, and friends of the graduates file into the hall anxiously waiting to see the graduates of 2004. Finally, the graduates are led into the hall by a scottish bagpiper. Masters of ceremony at the beginning are Shannon O'Rourke and Jamie Anderson-Reid, and the MCs for the second half are Spencer Idenouye and Mary-Alice Lesyk. Each graduate awaits their name. Once called they walk the stage and are greeted by Principal Burghardt. Constable Vallee escorts the graduates from the stage after their walk. Awaiting the graduates is a photographer who takes their picture. After this they walk back to their seating area to wait for the end of their night.

Valedictory Address

KATRINA BAZIUK

Good evening Trustee Dean, Principal Burghardt, special guests, teachers, graduates, family and friends. It is a pleasure and honour to stand before you tonight on this "once-in-a-lifetime" occasion.

Every good valedictorian starts their speech with a good quotation. I'm still trying to grasp what it really means to be a valedictorian, so...I don't have one, yet...There are so many aspects of our lives that one needs to acknowledge at an event such as this. Tonight is a tribute to our hard work, to the endless support and encouragement from parents and teachers, to our treasured friendships, and to the clubs and teams we have been a part of, all of which combined to make these special and often challenging years ultimately rewarding and worthwhile. "Here's to all the years!" is not only a celebration of the past years of our lives, but also of the present and future. It signifies a closing of what can be seen as an expository chapter, where the storyline of what is yet to come has been laid out, but also means that the beginning of the "real" story, full of new experiences, challenges, adversity and ultimately success is just around the corner. The fact that each graduate has made it this far is an indication of what we are truly capable of achieving. If we "Shoot for the moon, [we'll] land among the stars," with the help of some additional firepower provided by parents and teachers alike. For many of us, it is because these essential individuals lit fires under our butts that we are able to proudly stand here today. Just like friends, family and teachers have played a significant role in our lives thus far, we all have the chance to be important to others too, as we move out of the sanctuary of high school onto bigger and better things.

On a night like tonight, it is only fitting to be asking ourselves, "Where are we going now?" Nothing is certain anymore, as it was in past years. We got used to the idea that the end of one school year was certain to bring the next one only a few short months down the road and slowly closer to the ever elusive Grade 12 year. Now that it has nearly come to an end, though, where to now? What is in store for us?

Our lives are just like puzzles. When we're born everything is all scrambled. Pieces are everywhere. Along the way, we learn to read, speak, and think for ourselves, with the guidance, humor, and wise words of parents and teachers. A few of these pieces find their place on the board and make things a little clearer, making it easier to find other pieces of our lives, but what do all these pieces mean? On a puzzle, these pieces, when successfully assembled, replicate the picture on the box. For us, though, we aren't given a picture and told to create it using the pieces available. Depending on how we arrange our pieces, or tackle challenges, or interact with individuals and our role models, our puzzles will look a little bit different than everyone else's. Every one of our puzzles is unique. The pieces make up who we are as individuals. They represent the experiences that have challenged us to change, grow and realize our capabilities. As we make choices we are each creating and putting together our own unique characters. Just like on a forked road, or a double sided-puzzle piece, we can choose in which direction to head and ultimately play the lead role of putting together our puzzle pieces. Up to this point, our family, friends and teachers have been helping us build our respective puzzles. We all have to realize, though, that "We are the hearts that keep our dreams alive, and we are the ones that feel the rhythm deep inside." Only we truly know where a particular piece is meant to fit. We can look back on our years in public education and recognize that many important individuals have essentially built the foundation of our puzzles- the outside box. "True success only find you when you learn to be yourself." Now it is up to us to keep building on that foundation as we grow more independent and find ourselves- the centre of the puzzle. It's time to make that puzzle 3D. What shape will yours be? Some of us may become athletes, others medical doctors, others maybe even teachers. Nonetheless, everyone in this room has a role to play in their futures. Now it's time to figure out what these roles are.

Fellow graduates, don't be afraid to try, and fail. Life is by no means perfect and neither are we. Holding back will only hinder us from finding the piece that may complete our puzzles one day. Great achievements

involve great risks. So, though certain sacrifices may have to be made in the interim, in the long run, hard times will only lead to good times, which will make the whole ride worthwhile. "Dreams are the touchstones of our character." Pursue your dreams with passion and heart and you will undoubtedly find a way to make them a reality. Aspire to be the best you can be. Make your lives meaningful and worthwhile to you. If you don't, you're really selling yourself short and slapping life in the face, or breaking the puzzle apart. "There are no leaps too far, no jumps too wide, no lifts too high. Set your sights on the stars." Although sometimes the pieces of the puzzles don't seem to fit together on the first try, it's the perseverance, dedication, and passion that goes into finding the right piece that fits that strengthens our character and makes us who we are.

Friends and fellow graduates, we have all come a long way to get to this point in our lives and we've experienced something really special at LaZerte together. The school spirit embodied by students and staff alike, this sense of unity in the face of diverse backgrounds, makes our school what it is. At the very least, we will all walk away from this experience with a little bit of VG spirit. "Memory is a thousand stars lighting the paths we walk every day." Not only are we taking away knowledge and memorable experiences, but a little piece of LaZerte as well to fit into our distinctive puzzles. Though it may seem like we're leaving a lot behind, we are certainly only getting closer to everything else life has to offer us.

So, I think it's about time for my good quotation here. Let's try this:

Laugh often, smile whenever you can, dance like no one's watching, sing like you're the next American Idol, and live like there's no tomorrow. Don't take yourselves too seriously, otherwise the joke's on you. Life is truly what we make of it. So, let's make our stories, our puzzles, great ones.

Thank you and good luck!

Yearbook

Editors Message

First, I'd like to dedicate this fresh, modern, and innovative yearbook to all of the hardworking yearbook members. Without the countless hours put forth by Sylvia Hoang, Kimberly Liu, and Jamie Anderson-Reid, the yearbook could have not been as successful as it is. Sylvia being creative and artistic, gave this yearbook an extra colourful finishing touch that makes it sparkle with excitement. Kim's efforts were most gracious when her time was needed; taking care of the little errands helped make the day run smoothly and easily. Jamie's award winning photography contributions ensured we had quality pictures throughout the yearbook that provide wonderful memories. In addition, I like to thank Summer Ammar and Andrea Alaeddine for their efforts in production.

Out of everyone, I owe a huge thanks to our yearbook advisor, Mr. MacCollum. Working with him for three years on the yearbook, I've had the opportunity to be inspired to produce the best M.E. LaZerte yearbook the school has ever had. He allowed me to bring forth my vision for the yearbook and it has become a great portfolio that all will enjoy in the years to come.

Lastly, I hope you all enjoy reflecting as you flip through this book. It is filled with life from students, staff, and the school environment. Cherish the memories you've had this year, and in the future don't just put your yearbook away and forget about it; get it out someday and return to your time at M.E. LaZerte in 2003-2004.
